

## **Team 8 - Sprint 2 review report**

(Bianka Liiv, Sten Margus, Elias Ojala, Alessa Pentinmikko)

### **What has been done:**

- We created login/signup functionality for backend and frontend
- We created the database
- We created designs in figma
- We setup Azure for backend deployment
- We created frontend main view
- We created backend functionality for profile
- We created unit tests for backend functionalities (login/signup/profile)
- We created integration tests for backend

### **What is in progress:**

- We are developing the frontend view for the message and profile view

### **Obstacles we faced:**

- We didn't face any big obstacles
